

Lenkideal®

short stretch

Short stretch bandage with durable elasticity, very similar to the DIN "Ideal" bandage, but with longer-lasting elasticity and more durable, easy-care and economical – a bandage for all situations: for compressive

retention of wound dressings; for the application of ointment dressings; for compression of the extremities in phlebology, for pre-, intra- and postoperative thrombo-prophylaxis; for support and relief in cases of

distortions and contusions as well as for sport supports; for treating tendosynovitis, and for securing splints.

Lenkideal with its flat fabric does not become bulky, is air-permeable and skin-friendly.

Lenkideal®

White, dense fabric, 64% cotton, 35% polyamide, 1% elastane, with durable elasticity, short stretch, extensibility approx. 90%.
